Subject: RE: BD Loops Saw-cut

Date: Sat, 26 Apr 2008 6:48 am

I met Ted at a Trade show several years ago and he showed me the advantages in terms of efficiency and durability of the BD direct burial loop. We have use them since then and have never had a problem.

It was an easy decision to use the saw cut version when they became available. My crews appreciate the ease of installation using the install kit and wheel and I appreciate the fact that they are durable and reliable.

Great products !!!
