New Air Pocket Test Available from **BD Loops**

Ever get tech service questions asking why a gate or door opens by itself? One of the causes of the phantom detections is revealed in the newest test added to the BD Loops Lab.

Learn about the effects air-pockets can have when loops are wrapped through PVC and when wires have the ability to move within a saw-cut groove.

[View the Air Pocket Test Here.](#)

Upcoming Shows and Events

IDA Expo

When
April 21-24, 2010

Where

Las Vegas Convention Center - Las Vegas, Nevada

Come and see us at booth# 4035

IPI Expo

When

May 10th-13th, 2010

Where

Las Vegas Mandalay Bay Resort & Convention Center - Las Vegas, Nevada

Come see us at booth# 710

Looking for a Loop Sealant?

BD Loops Recommends
Chemque's Q-SEAL™

Q-SEAL™ polyurethane detector loops sealants provide a weather and chemical protective seal for wire loops employed in actuated intersections and preformed inductance loops for gate and door installations as well as for sealing saw cuts.

Q-SEAL™

Available in both one-component and two-component formulations, Q-SEAL™ can be used on both asphalt and concrete surfaces. Q-SEAL™ products exhibit exceptional chemical resistance to de-icing salts, gasoline, hydraulic brake fluid and motor oil and are approved by most of the DOTs in the USA and the Ministries of Transportations in Canada.

[Learn more about Q-SEAL™ here.](#)

Chemque's Q-SEAL™ works with our [3/16 Sealant Applicator Tip](#), save time and seal your loops in just one pass!

Thank you for taking the time to read our April newsletter. We are always looking for feedback, please feel free to reply to

this newsletter with any questions or comments.

Sincerely,

Brian Dickson
