BD Loops News Loop

January 2010

Saw-Cut Features and Advantages

16 AWG loop wire design for superior performance and durability.

Built in backer rod and three levels of insulation to protect against failure.

Prephased and color coded at the factory for easy installation.

Pre tested at the factory 3 different ways to insure proper performance.

No need to make second saw-cut for lead-in. Lead-in and loop jacket are the same size. Save time, money, and materials!

The only preformed saw-cut loop with an installation kit to insure a perfect sized cut every time. [Read more about the TB-Kit Here.](#)

Custom Loop orders received by 3:00pm EST (12:00pm PST) Ship the same day!

[Learn about the advantages of using a 3/16" blade for saw-cutting.](#)

[Read More about our Saw-Cut Loop's Time, Money and Material saving benefits on our website.](#)
