Did You Know?

Literature and Installation Instructions for all of our products can be downloaded off our website. (Some literature and installation instructions can be downloaded in Spanish)

Look for the **Orange** and **Blue** books on each product page to download that product's installation instructions or literature.

Some of our installation instructions and product literature are also available in Spanish and can be downloaded by clicking on the

button next to the **Orange** and **Blue** books on most product pages.

All of our installation instructions/product literature can also be downloaded off of our [Downloads Page](#).

Quick Links

Visit with the Loop Experts at the IPI Expo!

BD Loops will be exhibiting at the upcoming **IPI Expo** in Pittsburgh, PA.

The IPI Conference & Expo is the largest educational and networking event for parking and transportation professionals in the world. Traditionally, more than 2,000 attendees (2010 attendance was more than 2,400) gather for four days of meetings, keynotes, leadership discussions, networking, awards, special events, tours of parking facilities and an exhibit hall with more than 200 exhibitors.

When

May 22nd-25th, 2011

Where

David L Lawrence Convention Center Pittsburgh, Pa

Come See Us at Booth # 839

We'll also be Exhibiting at the IDA Expo!

We'll also be at the IDA Door Expo shortly after.

The International Garage Door Exposition is the largest gathering for door and operator educational workshops in the world, and you don't want to be left out. And, of course, the IDEA will be offering accreditation, Train-the-Trainer and certification

testing.

When

June 1-4th, 2011

Where

Indianapolis Convention Center - Indianapolis, Indiana

Come See Us at Booth # 5007

Come meet with the Loop Experts and get all your loop related questions answered.

BD Loops 3/16" Pro Diamond Saw Blade Information Updated

Earlier this month we developed a blade comparison chart to help installers determine which type of pro blade will best suit their needs.

Compare Blades to Find the Best Blade for You:

Type of Blade	Type of Bond	When used with asphalt surfaces	When used with concrete surfaces
Asphalt BD Loops Part Number: SB-A	Hard Bond	Designed for Asphalt surfaces. The Asphalt blade will have a long life and continue to cut quickly because of the hard bond allowing the diamonds to keep be open and ready for cutting.	Will cut slow and eventually glaze up and stop cutting altogether. The blade will continue to be unusable until the blade is run through an abrasive surface like asphalt, providing a new set of (open) diamonds.
Combo BD Loops Part Number: SB-B	Medium Bond	Will cut a little quicker than asphalt blades in asphalt surfaces, but at the cost of a reduced life of the blade. If you find yourself cutting into both types of surfaces often, a combo blade is a worthwhile investment.	Will not cut as quickly as the specialized concrete surface blade, but if you find yourself cutting into both types of surfaces often, a combo blade is a worthwhile investment.
Concrete BD Loops Part Number: SB-C	Soft Bond	Will quickly cut the asphalt surfaces but will cause the blade to wear quickly and drastically reduce the life of the blade by shedding the layer of diamonds prematurely.	Designed for Concrete surfaces. The Concrete blade will have a long life and continue to cut quickly because of the soft bond used on concrete will allow the diamonds to always be open and ready for cutting.

The complete blade comparison chart can be seen on our [saw blade product page](#).

Thank You!

Thank you for taking the time to read our May Installer newsletter. If you have any comments or questions please do not hesitate to contact us.

Sincerely,

Brian Dickson
