BD-LG2-GUN

Part# BD-LG2-GUN

Description

Dripless high quality 600ml dual cartridge dispensing gun for use with BD-LG2 2-part loop sealant.

Uses

Ideal for use with BD-LG2 (2-Part Loop Goop) winter blend/quick cure loop sealant.

Can be used with any 600 ml (22 floz) dual cartridges with 1:1 or 2:1 mix ratio.

Features

- Sturdy steel and aluminum construction.
- Dripless feature slightly pulls plungers back when handle is released. This takes pressure off the cartridges and helps prevent spills.
- Adjustable thrust gap for fine tuned bead control.
- For use with 600ml (22floz) dual cartridges in a 1:1 or 2:1 mix ratio.
- 26:1 Thrust ratio allows for easy use with high viscosity compounds.

Technical Specs

- Use with 22 floz/600 ml dual component cartridges.
- 26:1 thrust ratio.
- 1:1 or 2:1 tube configuration.
- Double steel gripper plates.
- Each pull of the trigger advances the cartridges by 3.5 mm.
- Composite straps and braces.
- Aluminum handle.
- Steel push disks.
- Side-by-side rod design.
- Adjustable screw cuts thrust gaps and provides bead control.

Instructions

Remove BD-LG2 cartridge D-shape plugs prior to use. Attach static mixer to the end of the cartridges and position static mixer in place. Insert cartridges into gun. Hold the gun vertically with static mixer pointing up gun the material a few times to release the air. Apply sealant to the saw-cut groove.

Packaging

Dimensions: 5" x 15" x 9" Weight: 5lbs.
