BD-LS-GUN

Part# BD-LS-GUN

Description

Dripless high quality 30 fl oz cartridge dispensing gun for use with BD-LS loop sealant.

Uses

Ideal for use with BD Loop Shield "BD-LS" Loop Sealant. Can be used with most quart (30 fl oz) style cartridges.

Features

- Lightweight composite material.
- Dripless feature slightly pulls plungers back when handle is released. This takes pressure off the cartridges and helps prevent spills.
- Spout cutter + extra-long clean-out rod
- Rotating barrel helps maintain bead orientation around corners and curves
- 18:1 thrust ratio for dispensing thick, viscous materials.

Technical Specs

- Use with quart 30 fl oz cartridges.
- 18:1 thrust ratio.
- Optional Dripless feature.
- Each pull of the trigger advances the cartridges by 6 mm.
- Made with advanced lightweight composite materials.
- Reinforced cage for extra strength.
- Ergonomic handle.
- Rotating barrel.
- Machined spout cutter & extra long clean-out.

Instructions for use with BD-LS Loop Sealant:

Carefully cut the tip off the cartridge just above the nozzle threads. Thread sealant tip onto cartridge and place into BD-LS-GUN caulking gun. Sealant should be applied from the bottom of the saw-cut groove. Slightly underfill the groove to be within 1/8" (3.12 mm) of the surface to prevent vehicles from tracking sealant.

Packaging

Dimensions: 3.5" x 8" x 20.5" Weight: 1.35lbs.

Country of Origin

Mexico
